PLEASE NOTE: The TMS conference DVDs are recorded in the DVD-R format. DVD-R is a recordable format that might not be compatible with older DVD players. Most (although not necessarily all) DVD drives in computers should be able to read the DVD. Currently, about 60% of standalone DVD players out there will read this format. To check and see if your DVD player will play the DVD-R, please consult the following site: <http://www.videohelp.com/dvdplayers.php?DVDname=&Submit=Search&dvd=r=1&Search=Search&orderby=Name>
